Technical Data

ARMOR KOTE

ULTRA DURABLE RUBBERIZED PROTECTIVE COATING

DESCRIPTION

This ultra-durable, abrasion resistant, rubberized spray coating provides a layer of protection unheralded in the maintenance world. It improves "gription" on tools and metal parts - while protecting against the damaging effects of water, salt, sand, and other chemicals. It's unaffected by weather and extreme temperatures - hot sun or freezing cold! Armor Kote remains pliable and protective even under the harshest of conditions. Its ability to seal out moisture, stop leaks, and prevent new ones is unparalleled. This rubberized coating reduces unwanted sound and dampens vibrations too. It's easy to carry, requires no clean up, and is easy to apply. Armor Kote truly has a myriad of uses - just let your imagination run wild! It can even be painted when dry!

EXCELLENCE SINCE 1964

USES / BENEFITS

Use Indoors or Outdoors on:

- tools
- metal parts
- vehicles
- boats
- RV's
- roofs
- gutters
- equipment
- flashings
- foundations
- drip pans
- truck beds
- trailers

DIRECTIONS FOR USE

Shake Extremely Well Before Using. Keep agitator ball moving for one minute before starting application. Shake can occasionally throughout application. For best results, several thin coats are better than one thick coat. Spray surface using short even sweeping motions from a distance of 12 to 14 inches. Make sure can is above 60°F before applying. After application, invert can and spray a short burst to clear nozzle.

PRECAUTIONS

Keep out of childrens reach. Follow label use directions.

Coats & Protects Surfaces
Prevents Corrosion
Weather Impervious
Flexible In All Temperatures
Seals Cracks • Stops Leaks
