# DIRECT HIT

WASP & HORNET INSECTICIDE

## DESCRIPTION

- Wasp and Hornet Insecticide
- Eliminates wasps, hornets and yellow jackets for good.
- Super long range "blaster valve" works from 15-20 feet, keeping you away from the target insect.
- Fast "chilling action" knocks them down quickly so the highly effective natural pyrethrin and carbamate ingredients can provide quick kill.
- Nonflammable, nonconductive, safe around electrical equipment.
- EPA Registered
- No 1, 1, 1, Trichloroethane.

## SPECIFICATIONS

Appearance ..... Clear Spray  
 Flash Point ..... >165° T.C.C.  
 Shelf life ..... 2 year minimum  
 pH ..... 2.0  
 Net weight ..... 12 oz.

## USES / BENEFITS

- **Can be used both indoors and outdoors.**
- **Use on hornets, wasps, and yellow jacket nests.**
- **Shoots a stream 15 - 20 feet**
- **Dielectric Strength 40,100 volts**
- **Kills instantly**
- **Nest treatment destroys larvae and adults.**

## PRECAUTIONS

CAUTION: Harmful if swallowed. Contains petroleum distillate. Do not induce vomiting because of aspiration pneumonia hazard. Do not breathe vapors or spray mist. Causes slight eye irritation. Do not get in eyes. Avoid contact with skin and clothing. Wash contaminated skin promptly with soap and warm water. Avoid contamination of feed and food stuffs.

Do not use in commercial food processing, preparation, food storage or serving areas. In the home, all food processing surfaces and utensils should be covered during treatment, or thoroughly washed before use. Exposed food should be covered or removed. Remove pets, birds, and cover fish aquariums before spraying.

## DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**For Control of Hornets, Wasps and Yellow Jackets:** It is preferable to apply this product in the evening after all of the insects have returned to the nest. Aim valve opening at the nest and depress button, continuing to spray until the nest is soaked with the spray. Repeat as necessary.
